IPAF Construction Hoist Training

PHs (Passenger Hoist), GHs (Goods Hoist) & TPH (Transport Platform Hoist)

Course Overview:

To provide trainees with theoretical knowledge and practical skills which will enable them to understand the role and responsibilities of a Hoist Operator. Following successful completion of the course, trainees receive an IPAF Hoist operator's licence (PAL Card) & certificate.

Course structure: This training course is carried out over 1 day, with a theory test and 1 x practical test.

Content

- Course Introduction
- Introduction to construction hoists
- Control and safety devices
- Operating instructions
- Emergency procedures & basic troubleshooting
- Pre-use check and weekly inspection
- Operation post-theory test, pre-use checks & practical test

Q & A

What practical exercises will be asked to demonstrate?

Delegates will be required to demonstrate how to start/stop/Isolate the Machine, carry out operational functions to full height, observe all safety practices and show an understanding of the operational limitations of the machine (load/wind).

What qualification will I gain from this?

IPAF - Hoist Operator licence (PAL Card) and certificate, valid for 5 years.

What is the course duration?

1 day.

Will I have an assessment?

Delegates are evaluated by means of a pre-theory test to see what they already know and a post-theory test to see what they have learnt. The instructor identifies if there are any areas where the delegates may need assistance to ensure the learning outcomes are achieved before undertaking the post-theory test and practical assessment.

Who is most suited to this training?

Personnel wishing to gain IPAF Hoist Operator certification and PAL card.

What are the course prerequisites?

Good written and verbal understanding of English. Users should be physically fit and in good health. If you have any problems with literacy or language comprehension or have any doubts about your fitness to use a Hoist, you must bring them to the attention of your employer.
