FIND OUT MORE

Genie SLA Material Hoist

Course Overview

This course combines a theoretical familiarisation session followed by a practical demonstration on site for those who use and operate Genie SLA-Material Hoists. The aim and objectives of the familiarisation are to provide personnel with a more in-depth knowledge of the lifting device; to understand and recognise the associated hazards and risks of lifting operations.

Course structure

Classroom theory session followed by practical demonstration on site by the trainer. The delegates then have the opportunity to practically demonstrate their enhanced knowledge and awareness of the Genie SLA Material Hoist.

Q & A

What practical exercises will be demonstrated?

A group exercise checking certification, demonstration of pre-use checks, function tests and correct set-up and lockdown procedures.

What qualification will I gain from this?

Select Training Academy Genie SLA Familiarisation Certificate

Course duration – 4 hours

Will I have an assessment?

Delegates are assessed throughout the course by the instructor to identify any areas the delegate may need assistance with to ensure they understand the learning outcomes prior to sitting an assessment paper.

Who is most suited to this training?

Those who will be using and operating Genie SLA Material Lifts and subsequent attachments

What are the course prerequisites?

Personnel wishing to gain basic understanding and appreciation for the above equipment, PPE - Safety boots, Hard Hat, Hi Vis vest, gloves & warm/wet weather clothing.
